- A. Generate the Attendance Change Tracking Report (ACTR) at least quarterly (by the end of each grading period) by modification date.
  1. If an attendance error found on the ACTR results in the absence being re-entered into the student information system, the error shall be corrected using the notation "Corrected per ACTR" in the student information system in the "Comments" field.
  2. Once the ACTR has been generated and any corrections that are needed have been completed, the principal shall notify his/her Area Superintendent in writing via email of this fact, including resolution of the errors. A copy of this communication shall be saved in a digital format and maintained on the building drive for a period of two years.
- B. Generate the Daily Attendance Summary Report daily. and store the documentation as directed by the Department of Student Services.

All other attendance errors shall be processed pursuant to the procedures outlined below.

Attendance errors are to be corrected at the building level. Should an error be identified, the following steps should be taken:

- A. A copy of the student's Period Detail Report reflecting the current information shall be printed prior to any changes being made.
- B. Errors made on multiple students in one day can be documented on the Daily Attendance Summary Report in lieu of printing the Period Detail Report for each student. This documentation should be filed in the daily attendance file for the date specified on the Daily Attendance Summary Report.
- C. The secretary shall make the necessary change(s) to update the record(s) for accuracy. Information regarding the change(s) shall be made in the "Comments" field. pursuant to the same but that was not properly coded.
